NSW Underground Geotechnical Society – Executive Committee

NUGS is a non-profit organisation with the aim of providing a forum for:

- 1. Dissemination of knowledge in relation to rock characterisation, support & mine design, strata management and reconciliation.*
- 2. Sharing and discussing specific industry problems.*
- 3. Identifying, promoting and reviewing research and development.*
- 4. Providing a link between students, educators, geotechnical practitioners and strata support suppliers.*
