NSW Underground Geotechnical Society – Executive Committee

NUGS is a non-profit organisation with the aim of providing a forum for:

1. *Dissemination of knowledge in relation to rock characterisation, support & mine design, strata management and reconciliation.*
2. *Sharing and discussing specific industry problems.*
3. *Identifying, promoting and reviewing research and development.*
4. *Providing a link between students, educators, geotechnical practitioners and strata support suppliers.*
